

## Introduction

The NHS White Paper reforms and consultation papers are coming through quickly and focus upon technical, administrative, political and democratic reforms involving not just GPs but also Councils and Mayors. The focus of these reforms is undoubtedly patient focus, commissioning and localisation. This conference is designed to allow delegates to hear the latest information, consider the key issues, meet their peers and discuss the proposals which are currently out for consultation. Delegates will learn about the plans to liberate Commissioning based upon local GP Commissioning Consortia and local partnerships with overall local authority coordination. During the morning, key speakers will cover many issues whilst the afternoon will focus upon a series of workshops.
